

Product Description

This stainless steel modular storage cart is a unique alternative to fixed stainless cabinets in OR rooms. It offers the storage capability of fixed or recessed stainless cabinets with the flexibility of easily reconfiguring to meet procedure specific storage needs.

This double wide cart has tempered glass doors and provides for quick identification of supplies. The 4200DGAS comes with a full center column and includes a modular cell system to allow for optimal organization of supplies.

The interior ceiling is pre-set to hold up to six optional pull-out Cath Managers (8CM). With a full center column there are a total of 38 usable cells, 19 per side.

The center column can be also removed to accommodate seven pull-out Cath Managers, full-width drawers (24x36DR) and/or shelves (36SH).

All models come with an easy grip bar for pushing/pulling the cart, 5" casters and a durable bumper around the perimeter of the base.

Key lock is standard on all models and a Digital Keyless Entry (5000DKE) may be added as a custom request. Accessories sold separately.
