

High Density Top Track Mobile Storage System

Double your storage space instantly with this economical top track mobile shelving system. Designed to provide quick access to supplies and allow air and light circulation throughout system.

- Easy to Install/Easy to Use
- The guide bar is anchored to stationary units with locking collars
- Eliminates unnecessary aisles
- Easy to Clean - No dust/debris build-up
- No tracks on floor
- Load Capacity : 1200 lbs for mobile units, 2000 lbs for stationary units
- Stainless steel overhead track provides smooth movement of the mobile units
- Guide blocks inserted into top of posts adjust for uneven floor

Guidelines

- The end units should be equal to or greater in width than the mobile units.
- All shelves must be the same length.
- An intermediate stationary unit is recommended for track runs greater than 16 ft (remember to include aisle space on both sides of intermediate).
- A 30-36" minimum aisle space is recommended.
- Allow extra 2" in depth for every mobile unit for the donut bumpers, and 1" overall for locking collar.
- Use 80" post height (QWP80) for the stationary posts with 74" no-insert posts (QWPNI74) for the mobile units and/or 69" stationary posts (QWP69) with 63" no-insert mobile posts (QWPNI63).
- Guide bar is sold by the foot with a max length of 12 ft. For lengths over 12 ft order one joining insert (QWTGBJ) for each length to be connected.
- Guide bars must be ordered for the front and back of the system eg. For a 12 ft system order 24 – QWTSGB stainless steel guide bar
- It is recommended that stationary units should be bolted to floor to minimize movement.

Materials

- Posts - 1" Diameter Chrome
- Shelves - Three Truss Chrome 1/4" Steel Frame
- Guide Bar - 1 1/4" Diameter Stainless Steel
- Guide Blocks - Polyethylene
- Casters - 5" Polyurethane
- Tie Bar - Chrome Finish

How To Order

Break down into 3 parts :

1. Stationary Units

- Order 4 posts per stationary units (QWP80 or QWP69)
- Order the qty and selected sizes of QuickWire shelves along with accessories
- Order 4 foot plates per stationary unit (QWFP)

2. Mobile Units

- Order the mobile units using the std no-insert posts 74" h (QWPNI74) or 63" (QWPNI63)
- Order the qty and selected sizes of QuickWire shelves along with accessories
- Order 1 set of rigid casters per mobile unit (QWRC5)
- Order 4 donut bumpers per mobile unit (QWCB)
- Order 2 sets of tie bars per mobile unit (QWTB18 for 18"d or QWTB24 for 24" deep)

3. Top Track Components

- Order 4 guide blocks per stationary and mobile unit (QWGBL)
- Order 4 locking collars for each stationary unit (QWTLC)
- Order the total amount of guide bar needed in feet (QWTSGB)
- Order 2 guide bar end caps for each end stationary unit (QWTBEC)
- Order joining inserts if necessary (QWTJI)

Top Track New Product Numbers and Descriptions

Product #	Descripton	U of M	Qty
Stationary Units			
QWP80	80" H chrome posts for top track stationary units, use w QWPNI74	ea	1
QWP69	69" H chrome posts for top track stationary units, use w QWPNI63	ea	1
QWFP	Foot Plate (stationary units need foot plate on them)	ea	1

Select std shelves and accessories from Qwire line for both stationary and mobile units

Mobile Units

QWPNI74	74" h chrome posts, no insert	ea	1
QWPNI63	63" h chrome posts, no insert	ea	1
QWRC5	5" rigid polyurethane casters, set of 4	pk	4
